

ALKALINE DEGREASING LIQUID DETERGENT

It is used for the extraordinary maintenance of very dirty surfaces to remove organic dirt. It is also suggested for the removal of dirt from construction site on acid-sensitive surfaces, such as not glossy marble, limestone and calcareous stones.

WATER BASE

ALKALINE

 ORDINARY AND EXTRA-
ORDINARY MAINTENANCE

TECHNICAL CHARACTERISTICS

The product is orange. Concentrated product to be diluted in water.

HOW TO APPLY IT

Tools

Can be applied using brush, a cloth or a single brush machine or pressure washer.

Mode

Apply the solution on the floor, leave on for a few seconds, then use a single brush machine or manually a brush for removing and scrubbing the dirt and then rinse at the end. Before proceeding with an extensive application, always test in a hidden corner the effective resistance of the material to the cleaning product. The product may damage the aluminium and painted surfaces.
