

AUTOLUCIDANTE

ideal for ridges, corners, edges, angles, touch;also on spray

Line

SELF-POLISHING

Function

Protects and polishes the treated surfaces. Makes easy and possible the polishing operations of the most difficult parts. Forms a transparent, shiny coat that brightens and enhances the natural colour of the treated surface.

Materials

Especially designed for marble; recommended for all types of porous materials

How to use

After to have grinded/polished with the abrasive n. 4, apply to the clean and dry surface, free from greasy substances, with paint-brush or cloth. Use stroking motion to promote maximum penetration and to avoid surface accumulation. After drying, a second application may be applied to intensify the desired effect. To bring out the best shine, when the surface is completely dry, polish with a buffing machine with wool felt pad.

Packaging

1-5-25 kg

Characteristics

Mixture of natural and synthetic polymers in organic solvents. □

Active ingredients approx 20%□

DO NOT APPLY on floors and walls.□
